

Fire Protection Fact Sheet

Overview

HAMMER offers a wide range of hands-on fire fighting training and education courses to meet today's fire service needs; including technical rescue skill building, hazardous materials response, emergency medical response, and weapons of mass destruction response.

At its 80-acre training campus in Richland, Washington, HAMMER performs fire service training for federal, state, tribal, and local agencies, as well as private industry organizations. Fire service customers may bring their own trainers to HAMMER or make use of the highly qualified training professionals available through HAMMER.
